In Loving Memory of Jordan Noble

Don't think of him as gone away-
his journey's just begun
life holds so many facets-
this earth is only one

Just think of him as resting
from the sorrows and the tears
in a place of warmth and comfort
where there are no days and years

Think how he must be wishing
that we could know today
how nothing but our sadness
can really pass away.

And think of him as living
in the hearts of those he touched
for nothing loved is ever lost-
and he was loved so much.

In Loving Memory of Denise Rudolph

In the years that follow,
Perhaps we'll find that even
long- lost memories will slip into
our mind, and suddenly you won't
seem so far from us. We'll think
of touching stories, the things
you used to do, and favorite moments
in which we were fortunate to be
a part- these memories of happy
times will keep you close in heart.

Senior Class Officers

"Our graduates will travel many different roads; some will immediately enter the workforce, others will proudly join our nation's military, and still many others will continue their education as they enter college. Regardless of what path you take, you are now young adults and should take this responsibility seriously. As you venture into this world, I urge you to always respect the feelings of others, and though differences may exist, respect those differences. I ask that you promote respect for others, kindness, compassion, and the strength of character which will allow you to choose the courageous path."

Throughout your life, you will be faced with choices. The decisions you make will define who you are. There will be times when you must decide to speak up when the faint hearted will not, or act decisively when others, afraid of the consequences to themselves, will not act at all. We, as parents and educators, hope that we have instilled in you the ability to know right from wrong and act according to your conscience and not mere convenience.

Remember the words of Pastor Martin Niemoeller etched in stone at the New England Holocaust, who wrote about WWII Germany and said, ".... the Nazis came first for the Communist, and I didn't speak up because I wasn't a Communist. Then they came for the Jews, and I didn't speak up because I wasn't a Jew. Then they came for the trade unionists, and I didn't speak up because I wasn't a trade unionist. Then they came for the Catholics, and I didn't speak up because I was a Protestant. Then they came for me and by that time no one was left to speak up."

Let your conscience be your guide to what is right and never forget to speak up. You have been taught to voice your beliefs and stand firm on your personal convictions, whatever they might be. It takes a special kind of person to stand for what is just and I believe those graduating this evening are just that type of young adult.

As you get ready to go out and begin your new venture, I ask you to please take a moment to think back on the people and events that have shaped the last four years for you. Your families, your teachers, your friends, and your experiences have all helped you reach this point. You have been well prepared to meet life. However, just as it was you who reached your goal here tonight, it is you who holds the keys to your own future success. With planning, perseverance, and hard work as your guiding principles, you will meet them all with grace and strength, and accomplishing great things will be your reward. Be proud in yourselves and what you have accomplished!"

Good luck,
